“IF YOU WANT
ANYTHING, JUST ASK
FOR IT, OLD SPORT.”

-THE GREAT GATSBY

We founded Old Sport Customs because we were inspired to share our hand-crafted wood products with people who like what we like. It's a lifestyle marked by the opening and closing of hunting seasons... The foursomes who have just as much fun in the nineteenth hole as they do on the golf course... The simple satisfaction of watching a perfectly presented fly trigger a rise... Paddling across a glassy stretch of water... A game of backgammon back at the lodge over a glass of something smooth. The spirit of those special moments are captured within our distinctive products, and are designed to live on for generations to come. It's damn nice stuff for Old Sports in search of something new. Let us know what we can build for you.

Santa Barbara Deck Chair

\$450 or \$1,700 for set of four

In 1929, Al Redfield and his bride Sally sailed from New York to Panama aboard the “Santa Barbara”, one of the finest passenger steamships in the venerable Grace Line fleet. We’re glad they were so adventurous because that’s where Al discovered an incredibly comfortable, and practical, foldable rocking deck chair. The version of that chair, made by Al when he returned home over 90 years ago, served as the inspiration and model for the classic design we have developed at Old Sport Customs. We think you will agree; not only will it stand the test of time, but also become a favorite at the cottage, beach house, by the pool, or at your next tailgate party. The convenient folding ability of this chair makes for easy transportation and storage. Want to add a custom touch? Give us a call and we’ll talk about options.

Our Santa Barbara Deck Chairs are made of White Oak and have two finishes available: Natural and Dark Tobacco. The fabric slings are made from industry-leading Sunbrella® marine grade cloth, which is breathable, resists fading, and is both water and mildew resistant. This material is comfortable, durable, and great looking!

Right Jack Cribbage Boards

Cribbage is said to have been invented in the early 1600s by Sir John Suckling, an English courtier, gamester, and gambler. We don't know what a courtier is, but we're pretty good at the other two things. It's still the only game you can play for money in an English Pub, so it's only natural that Old Sport Customs has the boards ready for you to put your final touch on with logos, monograms, Greek letters, etc.
